WORK EXPERIENCE

Pocket FM

Aug 2026 – Present

SDE 2

Bengaluru, India

- Independently engineered the complete **Store Revamp V2** featuring fluid, high-performance animations; integrated coin purchasing via **Apple In-App Purchases (StoreKit)**, **Juspay payment gateway**, and rewarded ad views to unlock audio episodes.
- Spearheaded performance optimization and **hang-free detection**; monitored and sanitized multi-threaded execution across GCD queues, resolving main-thread stalls, eliminating crashes via Crashlytics, and elevating session stability to 99.9%.
- Architected the **Notification & Tracking Permission revamp**, increasing opt-in rates to capture critical user telemetry, hang traces, and crash diagnostics for data-driven app reliability and feature improvements.
- Led technical feasibility and end-to-end iOS implementation for **Profile Revamp V2**, introducing user profile completion with secure **email and phone number verification** workflows.

Navi

May 2025 – Mar 2026

SDE 2

Bengaluru, India

- Improved application scalability by migrating lifecycle management to SceneDelegate architecture.
- Enabled deep-linking and faster content discovery by integrating CoreSpotlight-based search indexing.
- Enhanced modularity and testability by implementing dependency injection using Swinject.

MakeMyTrip

Jan 2024 – May 2025

Senior Software Engineer (SDE-2)

Bengaluru, India

- Improved user experience by developing features like Zero Cancellation, Free Date Change Insurance, and advanced Sort & Filter using SwiftUI.
- Accelerated feature integration by implementing Unified Flights SDK using SPM and CocoaPods across multiple architectural patterns.
- Increased team productivity by leading an iOS pod and conducting knowledge-sharing sessions on best practices.

Nuclei

May 2021 – Dec 2023

iOS Developer (SDE-1)

Bengaluru, India

- Delivered core banking features including Fund Transfer, Scan & Pay, and onboarding, improving mobile banking usability.
- Achieved regulatory compliance by integrating UPI using NPCI CL Library and successfully completing certification.
- Improved app performance and data consistency by optimizing CoreData migrations and concurrency handling.

EDUCATION

BNM Institute of Technology

Aug 2017 – Jun 2021

B.E. Computer Science | GPA: 8.45/10

Bengaluru, India

SKILLS

- Languages & Frameworks:** Swift, SwiftUI, UIKit, CoreData, StoreKit, APNS, Concurrency, Combine, Observable
- Tools:** Xcode, Git, GitHub, Bitbucket, Jira, App Store Connect, TestFlight, Juspay, Crashlytics, Instruments
- Concepts:** MVVM, MVP, VIPER, MVC, Dependency Injection, Hang Detection, CI/CD, Multi-threading

PROJECTS

Cobalion - AI Compliance Monitoring Platform

2025

Hackathon Project – Awarded Best Innovative Project (Navi)

- Built an AI-driven platform to automatically scrape regulatory circulars from NPCI and SEBI (PDF/HTML) and process them using LLM-based contextual analysis.
- Designed alerting workflows to notify relevant stakeholders on compliance gaps, improving response time to regulatory changes.

POGO

2022

Nuclei Hackathon Project

- Developed a gift voucher platform using Swift (iOS), Python (backend), and MySQL, enabling reward-based recharge workflows.

AWARDS

- Innovative Project Labs Summer Championship Award, BNM Institute of Technology (2018)
- Ranked 1 at college level on GeeksForGeeks (2021)
